

AMENDMENTS TO THE SPECIFICATION

Page 5, before the first full paragraph, insert the following paragraph:

As is apparent in the top view of Figure 6, there is no hole with a post passing through it in this second embodiment. Instead, as shown in Figure 5, the post 117 is disposed to extend from the top surface 104 of the bottom elongated member 102 adjacent the proximal end thereof and adjacent to and outwardly of a side surface of the top elongated member 101 to a point above the top surface 103 of the top elongated member 101. The top 117a of post 117 is coupled to lever 118.
